

iQ 32 Cart for iPad

The emergence of iPads and other tablet devices in Australia has revolutionised the way we learn, teach and work. The education sector is no exception with many schools and teaching institutions adopting this new technology. However, with new technology come new challenges such as syncing, charging and security of iPad devices.

External Dimensions (mm)
H906x W900 x L587
Internal Bay dimensions
Baskets designed to fit iPad with case
Weight
82kg

The new iQ 32 Cart by PC Locs solves all those issues and offers a truly unique and innovative product that can efficiently manage iPads in your school.

Images and specifications are subject to change. Final product may vary (size, weight etc).

- > Sync up to 32 iPads* simultaneously
- > Quickly charge up to 32 devices simultaneously at the full 2.1 amp rate
- > Removable iQ 16 SCB so you can sync and charge anywhere, anytime ** (refer to iQ 16 SCB page)
