
Class 10 UHS-I Card

Faster speeds to capture 3D HD video and fast action photos.

Kingston's Class 10 UHS-I card features UHS-I technology and impressive performance that lets users shoot full 1080p HD video and 3D video — and transfer files faster too.

With speeds up to 90MB/s read and 45MB/s write[1], this versatile card transfers files much faster than standard Class 10 SDHC/SDXC cards. Capacities up to 256GB[2] let users record more video — up to 1,280 minutes at 24Mbps of HD video — without having to switch cards. Photographers can shoot high-density image files, such as RAW or JPEG, without running out of space, and the card's higher sustained write speeds support continuous burst mode and ensure video integrity by reducing stutter.

The Class 10 UHS-I card is compatible with SDHC (16GB, 32GB) and SDXC (64GB, 128GB, 256GB). The card is backed by a lifetime warranty, free technical support and legendary Kingston® reliability.

- > Impressive 300X UHS-I speeds for sequential shots and 3D video
- > Ideal for use with DSLR cameras and HD camcorders
- > High capacities up to 256GB to store thousands of photos and hours of video
