

# PC Locs Revolution ECO 16 Bay Laptop Trolley

Create an instant computer lab – anywhere, anytime with the Revolution ECO 16 bay laptop trolley. With an emphasis on build quality, easy functionality and school friendly design, the Revolution ECO 16 bay laptop trolley has the capability to safely store, charge, secure and transport your laptop computers.

The Revolution ECO 16 bay laptop trolley comes equipped with the new remote controlled ECO Safe Charge™ power management system, designed to make charging your laptops as easy as pressing a button. The ECO Safe Charge™ can help prevent power overloading by staging power distribution. Save power, reduce energy bills, reduce your carbon footprint and extend the life of your laptop batteries with the ECO Safe Charge™.

## This product features:

### Charging

- ✓ Eco Safe Charge™ – remote controlled power management system designed to automatically stage power availability to each bank and has an ECO Timer™ function that allows you to select the amount of charge time for each bank (1 – 4 hours)
- ✓ 3m power lead for connecting the trolley to the main power source
- ✓ 16 x 240 volt power sockets

### Security

- ✓ Anti-theft security anchor kit for locking down the laptop trolley
- ✓ Recyclable steel construction for increased security, durability and longevity
- ✓ Recyclable steel locking bars for securing up to 16 notebooks or netbooks
- ✓ Revolution Range padlocks for securing the trolley and laptops

### Storage

- ✓ A unique one-time-adjustable bottom shelf can be set to store notebooks or netbooks.
- ✓ Vertical laptop orientation designed for quick and easy access
- ✓ Ample room under the top lid for storing laptop power packs
- ✓ Easy access to both sides of the trolley allows for quick and easy laptop distribution
- ✓ The top of the laptop trolley acts as a practical work bench for the teacher

### Transport

- ✓ Designed to accommodate standard width doorways
- ✓ 360° swivelling castors with brakes for easy manoeuvring

### Protection

- ✓ Open design for preventing laptops from overheating and for easy visual checks
- ✓ Felt lined slots for protecting laptops
- ✓ Powder coated finish in Igneous Grey and Leaf Green
- ✓ 10 Years Manufacturer's Warranty

### Accessories/Optional Extras

- ✓ Polyurethane wheels available as an optional extra (do not have brakes)
- ✓ Lockable top lid available as an optional extra
- ✓ Bottom storage tray available as an optional extra

### ECO SAFE CHARGE™

Remote controlled power management system designed to prevent overloads, save power, and reduce carbon emissions

### CASTORS WITH BRAKES

360° swivelling castors for easy manoeuvring

### BOTTOM STORAGE TRAY

Add a bottom storage tray to your Revolution ECO laptop trolley and increase your storage space to carry books, laptop mice or any other peripherals

OPTIONAL EXTRA

### POWER PACKS STORAGE

Ample room under the top lid for storing laptop power packs

### OPEN DESIGN FOR VENTILATION

The open design of the Revolution ECO laptop trolley allows air to flow naturally through the unit, dispersing the heat build up from the bank of charging laptops

### ADJUSTABLE LAPTOP SHELF

One time adjustable laptop shelf to fit notebooks or netbooks

### ANTI-THEFT SECURITY KIT

Lock the Revolution ECO trolley down after its use and prevent its theft
