

T.A.N.C.™ IV for Ultrabook with accessory pocket

“Quantum leaps ahead of their main competitors.”
Don Morgan Australian Inventor*

DESCRIPTION

At Targus, we're not afraid of tough treatment. Our experience in the open market means that we understand the what our users expect from their protective cases. We assist by designing laptop cases that provide maximum protection to your Laptop, Ultrabook, Tablet, Tablet PC, Mac, Chromebook, whatever it may be. That is why we have continued to work on our premium case, T.A.N.C.. By absorbing shocks, bumps and drops, the T.A.N.C.™ 4.0 doesn't just prevent laptop screen and other damages, **it minimises the need for laptop repair** – and ensures users' valuable time isn't interrupted. Without compromising the protection, we are very pleased to introduce T.A.N.C. 4.0, which is just as strong as previous versions but is now thinner and lighter than ever in a student friendly design.

T.A.N.C.'s unique combination of five layers of padding enhances the protective shell. Rigorous independent tests** over the years gives confidence to the user that the laptop won't be damaged if it should fall from a desktop or be leaned on (up to 50kg).

FEATURES & BENEFITS

- Patented T.A.N.C protection system designed & engineered in Australia ^{^Patent Application No.2010200741}
