Zip12

ERGOTRON®

Charging Desktop Cabinet

Charge, secure and protect Chromebooks • Tablets • Laptops

The latest in device charging technology, the Ergotron Zip12 Charging Desktop Cabinet provides the ultimate functionality and versatility. Charge, protect and secure a wide variety of devices – most tablet, Chromebook™, MacBook® and laptop devices with display sizes up to 14".

Flexibility and ability to mix and match up to 12 devices ensures your charging cabinet will meet your needs today and well into

the future. It features adjustable dividers so you can easily configure the slots to the size you need.

Because it will be fully safety certified, it's a smart choice for education, healthcare and enterprise environments.

MORE FLEXIBILITY

Adjustable dividers let you customize capacity:

Standard 1.1"-wide (28 mm) slots accommodate up to 12 devices – ideal for tablet, Chromebook and Ultrabook devices

Adjust slots to 1.9" (48 mm) to accommodate up to 8 laptops or thicker devices with large cases

Mix and match devices; move and remove dividers

 Remove a divider to create space to install a Wireless Access Point (not included); Ethernet cable routing hole included in back wall

- Country-specific 12 receptacle outlet strip is designed to work with oversized wall style and brick style AC adapters.
- Fits devices up to maximum dimensions 15.3" W x 9.7" H (38.9 x 24.6 cm) including case and cord

MORE EFFICIENCY

- PowerShuttle technology efficiently charges up to 30% faster with a single power cord plugged into a standard wall outlet
- Safely prevents overloading of electrical circuits by automatically determining the maximum number of

- Includes a convenient ON/OFF power button
- Removable top panel makes set-up and cabling easy
- Well-designed ventilation and continuous operating fans keep devices cool

Faster Charge

Some charging products

PowerShuttle is up to

- Cabinets are stackable up to two high (hardware is provided to secure units together)
- Ships fully assembled

SUPER SAFE

 For user and equipment safety, the entire cabinet will be tested and certified to UL 60950

MORE SECURITY

- Rugged steel construction handles rigorous use and demanding conditions
- Durable steel doors include a 3-point locking mechanism with separate key lock
- Add padlock for additional door security
- Cabinet can be securely attached to a worksurface up to 1" (25 mm) thick; security hardware is provided

Charge. Secure. Protect.

Chromebooks • Tablets • Laptops
