

10 ft Toslink to Miniplug Digital Audio Cable

StarTech ID: THINTOSMIN10

This 10ft Toslink to Miniplug digital audio cable offers an easy way to connect your Toslink devices to Miniplug devices, allowing you to get the most out of your digital audio gear, even at extreme volumes.

Thinner than our regular audio cables, the cable provides one Toslink male connector and one mini-optical male connector and features flexible PVC jacket construction that lets you bend the cable into any position you need without damaging the cable or losing any sound quality.

Applications

- Connects your DVD, CD, Mini Disc, DAT, Game console or other digital audio equipment to home theater system
- Ideal for DAT recorders, CD Players, CD Recorders, DVD players, Home Receiver, satellite dish and other types of digital audio products using Toslink/Mini-Plug optical interface

Features

- Delivers the most accurate bitstream transfer for the clearest and smoothest sound from your digital audio device
- Thin digital optical cables are backed by Startech.com's lifetime warranty
- Ultra thin flexible PVC jacket construction makes installation very easy even in hard to reach areas
- Startech.com's optical cable offers high quality digital sound from your computer to digital audio home theater systems
- Metal shell connector designed for lifelong durability
- Toslink/Mini Plug connector keeps fiber optical alignment for maximum data transfer
