

27" Widescreen 4Vu Privacy Screen Filter (16:9)

ASF27W9USZ

Overview

The Targus 27" 4Vu™ Privacy Screen is designed to fit 27" widescreen LCD monitors with 16:9 ratio screens. To protect your information, tiny vertical blinds on the surface of the privacy screen narrow the viewing angle so data is only visible directly in front of the monitor up to 30 degrees away from the center of the screen. Onlookers will only see a dark unclear screen when attempting to view the information from a side angle. In addition to providing security, the screen also blocks the glare to help reduce eye strain. The Targus Laptop Privacy Screen can be easily attached by using clear adhesive strips designed for LCD filters or with the included tab guides that stick to the edge of the LCD bezel to hold the screen in place or with the patent-pending under-bezel tabs that keep the privacy screen flush against the monitor's screen for optimal viewing performance. Users can position the tabs so the screen easily slides on and off. Highly portable and easy to use, the Targus Privacy Screen prevents onlookers from seeing valuable information often viewed on a laptop or LCD monitor.

Features

- Low-reflective coating reduces glare
- SKANE M-8 Anti-Microbial prevents degradation and is ideal for touch screens
- 3 installation options
- Data only visible directly in front of screen and up to 30 degrees to each side
