## One cable for Power, Video & Data

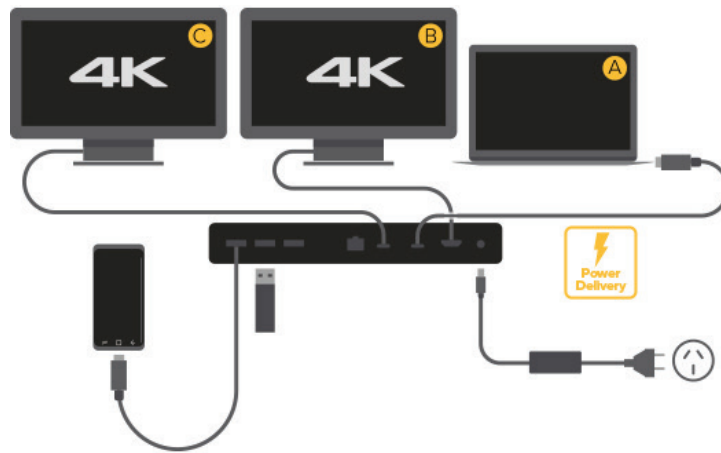

The dock connects to your Thunderbolt 3.0 enabled laptop by just one single Thunderbolt cable to charge your laptop, transfer data (up to 40Gbps), connect dual monitors, Gigabit Ethernet and an audio device at the same time.

Supports PD (Power Delivery) and can charge your laptop with up to 60W of power through the Thunderbolt 3.0 connection. Laptops rated 80W or 85W will also charge through the dock at a slower speed.

## Dual 4K Display Output: Increased Productivity

The dock connects to your USB-C enabled laptop by just one single USB-C cable to charge your laptop, transfer data, connect to an ultra HD display, Gigabit Ethernet, Audio and memory card at the same time. This feature eliminates the hassle of connecting multiple cables for power and data separately to your laptop.
