

## Productive, high performance mono printers for everyday use

If you need a black & white printer that supports the highest levels of office productivity – without straining your budget – you need the B431. Built for speed and maximum efficiency, it produces the first printed page in less than 4.5 seconds and the rest at an impressive 38 pages per minute. And that's just the start.

Choose the B431d for fast individual printing or the B431dn for sharing on the office network saving costs without losing productivity

### Designed for productivity

Of course, there's more to productivity than fast print speeds. The true 1200 x 1200dpi resolution delivers fine, crisp detail which is generously supported by a powerful 330MHz processor and 64MB of memory (expandable to 320MB), and a paper supply that can be increased to 880 sheets to mirror your productivity demands. There's even a 100-sheet multi-purpose tray, supporting a range of paper sizes, to meet everyday office

printing requirements. Plus, it comes with OKI Template Manager – making it easy for you to create and print a wide variety of office documents.

### Maximum Efficiency

The compact design of the B431 means it can be placed on any desktop within your office. What's more, its high yield consumables let you print up to 10,000 pages without replenishment, helping to keep the cost-per-page down whilst maximising your uptime. Other essential features include automatic two-sided printing as standard, a 'Power Save' mode that reduces energy consumption to just 8W, and because the toner cartridge and drum are all separate, you only ever have to replace what needs replacing. The B431dn also comes with our popular PrintSuperVision software – the smart way to actively manage your office printing, for improved control by tracking and monitoring usage of your networked printers.

### Built for endurance

Maximum reliability means maximum return on investment. And that's what the B431 delivers. It uses ultra-reliable digital LED technology (pioneered by OKI and proven over more than 20 years) with fewer moving parts for exceptional durability.

### Exceptional value for money

Not only does the B431 give you much more for your money, but it's surprisingly inexpensive to run. High yield consumable and built-in reliability all contribute to a low total cost of ownership.

**Consumables Information:** For the protection of your printer, and in order to ensure that you benefit from its full functionality, this model has been designed to operate only with genuine OKI Printing Solutions toner cartridges. These can be identified by the OKI trademark. Any other toner cartridge may not operate at all, even if it is described as "compatible", and if it does work, your printer's performance and print quality may be degraded.
