logitech®

CRYSTAL CLEAR MEETINGS.

Logitech C925e Webcam

Logitech® C925e Webcam delivers razor-sharp video at an amazingly affordable price for an enhanced face-to-face meeting experience from virtually any desktop.

With a 78° field of view, full HD video with autofocus, and RightLight™ 2 technology, the C925e webcam provides an outstanding collaboration experience improving visual

quality in low light and backlit situations at multiple distances. Omni-directional dual stereo microphones deliver crystal clear sound in private offices and open workspaces. Users can also quickly get privacy and security from the video stream with the built in privacy shutter.

Logitech C925e Webcam is brilliantly designed for anyone seeking enhanced video collaboration.

USB plug-and-play connectivity makes it a breeze to set up and operate — it even works with any video conferencing software application, including the ones you already use. With advanced business certifications and enhanced integration with Logitech Collaboration Program (LCP) members[1] users can expect a seamless integrated meeting experience.

Logitech C925e Webcam

HD 1080p video at up to 30 frames per second
Full HD 1080p 30 fps makes a vivid impression every time with true-to-life video calls.

Easy-to-use
Simple to set up and use, USB plug-and-play connection makes video meetings easy.

UVC H.264 encoding technology
Frees up PC bandwidth by putting video processing within the camera.

Convenient privacy shutter
Easy lens closure for added privacy and security.

78° field of view
See more without having to reposition the camera or crop and zoom.

Logitech RightLight™ 2 technology and autofocus
Webcam intelligently adjusts to improve visual quality in low light and backlit situations at multiple distances.

Omni-directional dual stereo microphones
Designed to capture sound for clear communication in larger spaces like offices and small conference rooms.

Mutiple mounting options
Freedom to mount the camera wherever it works best — LCD screen, notebook, or tabletop — by using the attached clip or the tripod embedded thread.

Professional-grade certifications
Leading business certifications (Certified for Skype for Business, Optimized for Microsoft® Lync® 2013, Cisco Jabber® and WebEx® compatible[2]) and enhanced integration with Logitech Collaboration Program (LCP) members[1] ensure an integrated experience with most business-grade video conferencing platforms.
