# Home and office prints resist fading

With HP Inkjet photo printing systems for home and small business

HP designs its printers, cartridges, and papers so that your prints will last. HP's portfolio of Original HP inks and photo papers print your precious photos so they stand the test of time.

### Photo fade resistance

One element of photo quality and durability is fade from exposure to light when the photo is displayed. HP performs fade resistance testing in HP's Image Permanence Labs.¹ Additional testing has been done on some Original HP Ink cartridges by Wilhelm Imaging Research, Inc. (WIR), a leading independent test lab. The photo fade resistance ratings below are based on photos printed by Original HP ink cartridges on HP photo papers and then displayed under glass.

Photos printed with HP printers and Original HP inks on HP photos papers have vibrant colors and are enjoyable for a long time. Original HP Cartridges are the only cartridges precisely developed with HP printers for reliable quality and striking images, photo after photo.

### Data sheet

The table shows typical photo fade resistance using Original HP Inks and HP photo papers when displayed under glass. All were printed using HP consumer inkjet printers that are popular or recently introduced products.

## Examples of fade resistance ratings: simulation of color photos printed with Original HP Ink Cartridges and HP Photo Papers, displayed under glass

Ink cartridge <sup>2</sup>	Photo type & cartridges	Glass-covered display years
HP 62 Ink Cartridges	Color printing with Tri-color	55+ <sup>3</sup>
HP 63/302/123/803 Ink Cartridges	Color printing with Tri-color	55+ <sup>3</sup>
HP 64/303/804 Ink Cartridges	Color printing with Black and Tri-color	65³
HP 65/304 lnk Cartridges	Color printing with Tri-color	55+ <sup>3</sup>
HP 564/178/364/862	Color printing with Tri-color	80³
HP GT51/GT52 Ink Bottles	Color printing with Cyan, Magenta, Yellow inks	75 <sup>5</sup>
HP 30/31 Ink Bottles	Color printing with Cyan, Magenta, Yellow inks	75⁵

### **HP Sprocket Photo Paper**

When you choose HP Sprocket Photo Paper, your photos can last for decades.3

	Glass-covered display years
HP Sprocket Photo Paper⁴	433

HP hopes you will enjoy your photos for many years to come. HP printers, Original HP Ink cartridges, and HP photo papers are designed together for quality prints you can take pride in.

# Business document fade resistance

Business documents such as letters, reports. emails, invoices, financial statements, legal documents, brochures, flyers, and sales material contain valuable content. Most often, these text and graphics documents are printed on plain paper by inkjet printers. HP office printers are designed for this type of business printing. Fade resistance is an element of the durability of these prints.

#### Data sheet

Usually, only the most important business documents are displayed and often under UV filter, instead of framed under glass. HP rigorously tests business document fade resistance on plain business paper to ensure that your documents will be readable and stable for years to come. Testing occurs in HP's Image Permanence Labs and at Wilhelm Imaging Research, Inc. (WIR), a leading independent test lab.

The following table shows results for recently tested HP cartridges for fade resistance under UV filter to provide examples of typical durability.

Examples of fade resistance ratings: simulation for black and color documents printed with Original HP Ink Cartridges and Hammermill paper, displayed under UV filter.

Ink cartridge <sup>2</sup>	Displayed under UV filter in years
HP 934/935	62 <sup>5</sup>
HP 940	735
HP 950/951	915
HP 952	74 <sup>5</sup>
HP 970/971	78 <sup>5</sup>
HP 980	925

In addition, some businesses store documents in folders or cabinets and review them periodically. Documents and photos printed on HP photo papers with Original HP inks for the office can last for over 200 years. You can count on HP prints on plain papers using pigment inks for HP OfficeJet Pro and HP PageWide printers to stay legible and useful for many, many years.

HP develops Original HP ink with HP printers and papers commonly used in the office so that your business documents resist fading from light for decades, whether stored in cabinets, folders, or on display under UV filter. HP develops Original HP inks with a variety of papers including HP photo papers so that your business and home printing will resist fading. Stored in folders, cabinets, or albums or displayed with some protection, your prints will resist fading from light for decades. HP inks provide high quality text, graphics, and photos and a reliable printing experience. Enjoy your home and business prints and photos with HP-an industry leader.
